

Dhanalakshmi Srinivasan University (DSU) is pleased to present its annual report for 2023, highlighting our commitment to Sustainable Development Goal 15 - Life on Land. This comprehensive report outlines our initiatives, achievements, and contributions toward the conservation, restoration, and sustainable use of terrestrial ecosystems.

**Biodiversity Conservation:** DSU actively engages in biodiversity conservation efforts on campus. Tree-planting drives, preservation of green spaces, and awareness programs on the importance of biodiversity contribute to creating a campus environment that values and protects terrestrial ecosystems.

**Afforestation and Reforestation:** DSU is committed to afforestation and reforestation initiatives. Ongoing tree-planting campaigns aim to increase green cover, enhance biodiversity, and contribute to carbon sequestration, aligning with the principles of sustainable land use.

**Sustainable Agriculture Practices:** DSU promotes sustainable agriculture practices to minimize the impact of farming activities on terrestrial ecosystems. Initiatives include organic farming practices, crop diversification, and educational programs to encourage environmentally conscious agricultural practices.

**Campus Sustainability Practices:** DSU incorporates sustainability practices within the campus to minimize its impact on terrestrial ecosystems. Waste reduction, recycling programs, and water conservation efforts contribute to creating a campus environment that aligns with the principles of life on land.

**Outreach activities:** Cleaning drive in nearby villages

**Conservation Research and Education:** DSU is actively involved in research on terrestrial ecosystems and biodiversity conservation. Faculty and student-led research projects explore topics such as habitat restoration, wildlife conservation, and sustainable land management, contributing to the understanding and preservation of life on land.

#### **Future Plans:**

- Expand afforestation and reforestation initiatives.
- Strengthen sustainable agriculture practices on campus.
- Enhance biodiversity conservation efforts.
- Intensify campus sustainability practices.
- Increase research and education on terrestrial ecosystems.

### *Campus clean drive*

Dhanalakshmi Srinivasan University's commitment to Sustainable Development Goal 15 - Life on Land is evident through our initiatives in biodiversity conservation, afforestation and reforestation, sustainable agriculture practices, campus sustainability, and research and education on terrestrial ecosystems. DSU remains dedicated to fostering a campus environment that actively contributes to the preservation of life on land and aligns with broader goals for sustainable land use. **"Annexure SDG-15"** lists out various events and programmes organized and activities carried out by DSU pertinent to SDG-15.
